## November 5, 2002

Sid Frank Stone & Webster, Inc. 100 Technology Drive Stoughton, MA 02072

SUBJECT: RESPONSE TO E-MAIL DATED OCTOBER 23, 2002, REGARDING GENERIC

SAFETY ISSUE 191, "ASSESSMENT OF DEBRIS ACCUMULATION ON PWR

SUMP PERFORMANCE"

Dear Mr. Frank:

I am writing this letter in response to your e-mail to the Nuclear Regulatory Commission (NRC) dated October 23, 2002, in which you asked questions relating to Generic Safety Issue (GSI)-191, "Assessment of Debris Accumulation on PWR [Pressurized Water Reactor] Sump Performance." Your e-mail was entered into the NRC's Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. The e-mail is also accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <a href="http://www.nrc.gov/reading-rm/adams.html">http://www.nrc.gov/reading-rm/adams.html</a>, using the Accession No. ML022960620.

In your October 23, 2002, e-mail, you asked questions regarding the NRC's current status for resolving GSI-191, the form of the resolution, and the schedule for resolution.

The proposed form of the final resolution for GSI-191 is a generic letter (GL). The NRC staff has prepared a GL and plans to issue it in draft form for public comment in January 2003. The final GL is proposed to be issued in the spring of 2003. However, these proposed completion dates are subject to change.

The NRC staff holds public meetings regarding the status of GSI-191 on a fairly frequent basis. The last meeting was held on October 24, 2002. The NRC's public meeting schedules are available at the NRC Web site at <a href="http://www.nrc.gov">http://www.nrc.gov</a>. Summaries of NRC public meetings can be found at the NRC's PDR and are also accessible through ADAMS.

We trust that this letter has been responsive to your questions.

Sincerely,

/RA/

John G. Lamb, Project Manager, Section 1 Project Directorate III Division of Licensing Project Management Office of Nuclear Reactor Regulation Sid Frank Stone & Webster, Inc. 100 Technology Drive Stoughton, MA 02072
